Please Note:

- Not all available products are represented in this survey.
- Prices are subject to change at any time.
- Pricing is based on the lowest price found, with services as similar by category as possible. Call to inquire about details.
- Empty line items do not indicate that those products are not available; they may not have been listed on the General Price List (GPL). Call to ask about services you wish to purchase.
- All efforts were made to procure GPLs from all New Hampshire funeral providers. Empty columns indicate that our attempts by mail, phone, website, and email over a one-year period were unsuccessful. Firms may contact us at any time to be added or to offer corrections and updates.
- We recommend confirming the prices and availability with the provider, as well as for information about additional services.
- To learn more about how to use this survey and to better understand what you are purchasing, please read What to Expect When Funeral Shopping, available on our website.

We wish to express our deepest gratitude to those funeral directors who agreed to participate by responding to our requests and for posting their GPLs on their websites.
