## **Meals**

Meals will be by group preparation, with participants bringing some foods to share. If you have special dietary requirements, we will provide storage space for you to bring foods to meet your own needs. We will be cooking and dining in private home space, so we will all pitch in to keep meals on track and the kitchen in good shape.

## **Outdoor Activities**

There is plenty of road and trail walking just out the door so bring your walking shoes.

## **Water and Bath Needs**

Our water is heated with solar panels and an oversized electric tank, with two full baths to share. Drinking water is from an artesian well on tap.
